

# Constraining the Accretion Flow in Sgr A\* by GR Dynamical and Radiative Modeling

Roman Shcherbakov, Harvard, CfA

<http://www.cfa.harvard.edu/~rshcherb/>  
[rshcherbakov@cfa.harvard.edu](mailto:rshcherbakov@cfa.harvard.edu)

Best combination to date:  
3D GRMHD + polarized GR rad. transfer

- Description of simulations
- Step-by-step guide to polarized GR radiative transfer (fixing inconsistencies?!)
- SEDs and images
- Discussion of which models fit
